

THE HARMONIE CLUB FORUMS

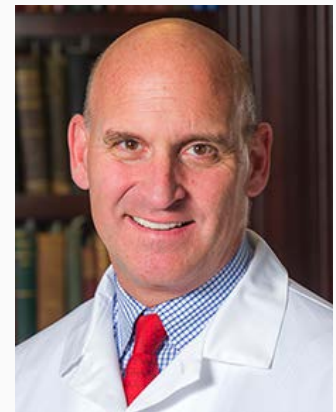

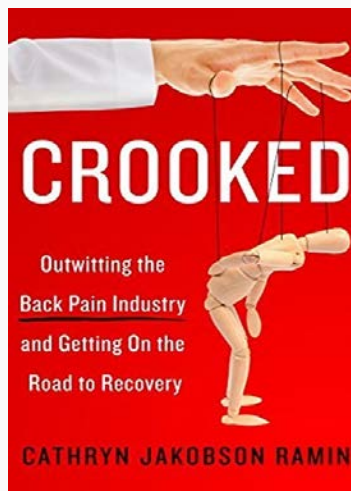

The back pain treatment industry is a thriving business. Spinal surgeries, pain medicine, chiropractors, etc. don't seem to provide long-term solutions.

Join author and investigative reporter Cathryn Jakobson Ramin, along with Dr. Todd Albert, Surgeon-in-Chief and Medical Director of Hospital for Special Surgery, to discuss *Crooked*, a book about outwitting the back pain industry to finally get on the road to recovery.
